EXPERIENCE

GLOBALLOGIC

New York, NY

Content Writer

Apr. 2024 – Mar. 2025

- Researched, drafted, and evaluated large volumes of textual data to train large language models (LLMs) for a Fortune 10 client, assessing factual grounding, logical coherence, neutrality, and compliance with ethical standards.
- Analyzed weight, reliability, and validity of diverse source materials to ensure high-quality, bias-mitigated AI outputs.
- Collaborated with peers to resolve factual, ethical, and linguistic ambiguities and to refine standards for data quality, risk mitigation, and responsible AI development.

SOKAI SOLUTIONS

Remote

Co-Founder and Software Developer

Jan. 2022 – Apr. 2024

- Drafted and negotiated client contracts and project terms; managed ongoing client relationships.
- Oversaw the full lifecycle of three software projects, including requirements analysis, technical design, implementation, testing, and delivery, while balancing project objectives and constraints.

MODULARHISTORY

College Station, TX

Co-Founder and Software Developer

Jun. 2020 – Dec. 2021

- Co-founded an organization dedicated to improving civic dialogue through education; drafted bylaws and other governing documents in compliance with state and federal requirements; obtained 501(c)(3) nonprofit status.
- Directed a university capstone project developing a web platform promoting balanced engagement with controversial social issues through curated research, accessible design, and content moderation.

INDEED

Tokyo, Japan

Quality Assurance Engineer

Jun. 2018 – Jun. 2020

- Automated functional tests for four websites, reducing team's manual quality assurance (QA) burden by over 50%.
- Proactively mitigated business risk by designing, implementing, documenting, and presenting a QA tool that was subsequently adopted by multiple international teams.
- Drafted and maintained internal documentation to standardize QA processes and institutionalize knowledge.
- Facilitated weekly team meetings and collaborated cross-functionally with product managers and engineering teams to prioritize competing tasks and align expectations among international stakeholders.

BRIGHAM YOUNG UNIVERSITY

Provo, UT

Teaching Assistant, Research Assistant, and Instructor

Aug. 2016 – Apr. 2018

- Mentored junior students on application development, data analytics, systems design, and business ethics.
- Analyzed data from two privacy-related experiments; synthesized data into actionable findings.
- Co-authored a research paper on "privacy fatigue" nominated for Best Paper Award at the Hawaii International Conference on Systems Sciences (HICSS).
- Taught "Spreadsheet Skills & Business Analysis" course; demonstrated advanced spreadsheet techniques.
